

# Box Art with Box Tops!

This is a great project you can incorporate into a topic your class is currently studying.

- 1 Collect cardboard boxes from cereal or other food products. (Cereal boxes work best because they provide a larger canvas.)

- 2 Prepare boxes by breaking them down and cutting off extra tabs.

- 3 Gather supplies for kids to color, paint, draw and/or collage.

- 4 Hang artwork around school hallways and classrooms to show off their creations.
